

# Citronella Oil

Citronella Oil is supplied in the Speciality Oils range for industrial formulation and processing enquiries. CAS No. 8052-41-3.

|                   |                                   |

## CONTROLLED DOCUMENT NOTICE

This branded cover is provided for document identification and distribution. The following pages are the original controlled technical document and remain the authoritative technical content.

## Citronella Lamp Oil

Date of compilation: 2025-12-15

Version: 1

### SECTION 1: IDENTIFICATION

#### 1.1 Product identifier:

 Citronella Lamp Oil  
 Stoddard solvent

CAS: 8052-41-3

#### Other means of identification:

Not relevant

#### 1.2 Recommended use of the chemical and restrictions on use:

Relevant uses (Industrial user):

- Not defined

Uses advised against:

- All uses not specified in this section or in section 7.3

#### 1.3 Initial supplier identifier:

 FORMULA A INC  
 18900 Av. Clark Graham  
 H9X 3R8 Baie-d'Urfé - CANADA  
 Phone: (514) 457-7888  
<http://www.aaindustriesinc.com/>

#### 1.4 Emergency phone number:

Canada – CANUTEC 24-hour # 613-996-6666  
 1-888-CAN-UTEC (226-8832)  
 514-825-4977

### SECTION 2: HAZARD IDENTIFICATION

#### 2.1 Classification of the substance or mixture:

##### WHMIS 2015:

Classification of this product has been carried out in accordance with Part 2 of Hazardous Products Regulations (SOR/2015-17 amended by SOR/2022-272)

Asp. Tox. 1: Aspiration hazard, Category 1, H304

Carc. 1B: Carcinogenicity, Category 1B, H350

Muta. 1B: Germ cell mutagenicity, Category 1B, H340

#### 2.2 Label elements:

##### WHMIS 2015:

Danger

##### Hazard statements:

Asp. Tox. 1: H304 - May be fatal if swallowed and enters airways.

Carc. 1B: H350 - May cause cancer.

Muta. 1B: H340 - May cause genetic defects.

##### Precautionary statements:

P201: Obtain special instructions before use.

P202: Do not handle until all safety precautions have been read and understood.

P301+P310: IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

P308+P313: IF exposed or concerned: Get medical advice/attention.

P331: Do NOT induce vomiting.

P501: Dispose of contents and / or containers in accordance with regulations on hazardous waste or packaging and packaging waste respectively.

#### 2.3 Health and physical hazards not otherwise classified (HHNOC - PHNOC):

Not relevant

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Substances:

## Citronella Lamp Oil

Date of compilation: 2025-12-15

Version: 1

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS (continued)

**Chemical description:** Not defined

In accordance with Schedule I of the Hazardous Products Regulations (SOR/2015-17), the product contains:

| Identification | Chemical name/Classification                                                                                                                                              | Concentration |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| CAS: 8052-41-3 | <b>Stoddard solvent</b><br>Asp. Tox. 1: H304; Carc. 1B: H350; Muta. 1B: H340 - Danger  | <b>100 %</b>  |

To obtain more information on the hazards of the substances consult sections 11, 12 and 16.

#### 3.2 Mixtures:

Not relevant

### SECTION 4: FIRST-AID MEASURES

#### 4.1 Description of necessary measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product.

**By inhalation:**

Remove the affected person from the area of exposure, provide them with fresh air, and keep them at rest. In severe cases such as cardiorespiratory arrest, administer artificial respiration techniques if properly trained (CPR, oxygen provision, etc.) and seek immediate medical assistance.

**By skin contact:**

In case of contact it is recommended to clean the affected area thoroughly with water and neutral soap. In case of changes to the skin (stinging, redness, rashes, blisters,...), seek medical advice with this Safety Data Sheet

**By eye contact:**

This product does not contain substances classified as hazardous for eye contact. Rinse eyes thoroughly for at least 15 minutes with lukewarm water, ensuring that the person affected does not rub or close their eyes.

**By ingestion/aspiration:**

Request medical assistance immediately, showing the SDS of this product. Do not induce vomiting, but if it does happen keep the head down to avoid aspiration. In the case of loss of consciousness do not administer anything orally unless supervised by a doctor. Rinse out the mouth and throat, as they may have been affected during ingestion. Keep the person affected at rest.

#### 4.2 Most important symptoms/effects, acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

#### 4.3 Indication of immediate medical attention and special treatment needed, if necessary:

Not relevant

### SECTION 5: FIRE-FIGHTING MEASURES

#### 5.1 Suitable (and unsuitable) extinguishing media:

**Suitable extinguishing media:**

Product is non-flammable under normal conditions of storage, handling and use. In the case of combustion as a result of improper handling, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems.

**Unsuitable extinguishing media:**

Non-applicable

#### 5.2 Specific hazards arising from the chemical:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

#### 5.3 Special protective equipment and precautions for fire-fighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and Self Contained Breathing Apparatus. Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...)

**Additional provisions:**

## Citronella Lamp Oil

Date of compilation: 2025-12-15

Version: 1

### SECTION 5: FIRE-FIGHTING MEASURES (continued)

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Destroy any source of ignition. In case of fire, refrigerate the storage containers and tanks for products susceptible to inflammation, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures:

##### For non-emergency personnel:

Isolate leaks provided that there is no additional risk for the people performing this task. Personal protection equipment must be used against potential contact with the spilled product (See section 8). Evacuate the area and keep out those who do not have protection.

##### For emergency responders:

Wear protective equipment. Keep unprotected persons away. See section 8.

#### 6.2 Environmental precautions:

This product is not classified as hazardous to the environment. Keep product away from drains, surface and underground water.

#### 6.3 Methods and materials for containment and cleaning up:

It is recommended:

Prevent the entrance of product in drains, sewers or watercourses. Absorb the spill using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. Collect the product in appropriate containers and manage it according to current legislation.

Spillages in water or sea:

Small spillages:

Contain spillage using barriers or similar equipment. Use suitable absorbents for collection and treat the waste in accordance with current regulations.

Large spillages:

If possible, contain spillage in open water using barriers or similar equipment. If this is not possible, try to control its spread and collect the product with suitable mechanical means. Always consult experts before using dispersants and make sure you have the necessary approvals if they are to be used. Treat the waste according to current regulations.

#### 6.4 Reference to other sections:

See sections 8 and 13.

### SECTION 7: HANDLING AND STORAGE

#### 7.1 Precautions for safe handling:

A.- General precautions for safe use

Comply with the current legislation concerning the prevention of industrial risks with regards manually handling weights. Maintain order, cleanliness and dispose of using safe methods (section 6).

B.- Technical recommendations for the prevention of fires and explosions

Product is non-flammable under normal conditions of storage, manipulation and use. It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that can affect flammable products. Consult section 10 for information on conditions and materials that should be avoided.

C.- Technical recommendations on general occupational hygiene

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

It is recommended to have absorbent material available at close proximity to the product (See subsection 6.3)

#### 7.2 Conditions for safe storage, including any incompatibilities:

A.- Specific storage requirements

Store in a cool, dry, well-ventilated location

B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

#### 7.3 Specific end use(s):

- CONTINUED ON NEXT PAGE -

## Citronella Lamp Oil

Date of compilation: 2025-12-15

Version: 1

### SECTION 7: HANDLING AND STORAGE (continued)

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters:

Substances whose occupational exposure limits have to be assessed in the workplace:

British Columbia - Occupational Health and Safety Regulation section 5.48 (Updated June 22, 2022):

| Identification                     | Occupational exposure limits |  |                       |
|------------------------------------|------------------------------|--|-----------------------|
| Stoddard solvent<br>CAS: 8052-41-3 | TLV-TWA                      |  | 290 mg/m <sup>3</sup> |
|                                    | TLV-STEL                     |  | 580 mg/m <sup>3</sup> |

ALBERTA - Occupational Health and Safety Code:

| Identification                     | Occupational exposure limits |         |                       |
|------------------------------------|------------------------------|---------|-----------------------|
| Stoddard solvent<br>CAS: 8052-41-3 | 8-hour                       | 100 ppm | 572 mg/m <sup>3</sup> |
|                                    | 15-minute                    |         |                       |

#### 8.2 Appropriate engineering controls:

A.- Individual protection measures, such as personal protective equipment

As a preventative measure it is recommended to use basic Personal Protection Equipment. For more information on Personal Protection Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For more information see subsection 7.1.

All information contained herein is a recommendation which needs some specification from the labour risk prevention services as it is not known whether the company has additional measures at its disposal.

B.- Respiratory protection

| Pictogram                                                                                                                     | PPE                                                | Remarks                                                                                                                                                              |
|-------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <br>Mandatory respiratory tract protection | Filter mask for gases and vapours (Filter type: A) | Replace when there is a taste or smell of the contaminant inside the face mask. If the contaminant comes with warnings it is recommended to use isolation equipment. |

C.- Specific protection for the hands

| Pictogram                                                                                                        | PPE                                       | Remarks                                                                                                                                                                                            |
|------------------------------------------------------------------------------------------------------------------|-------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <br>Mandatory hand protection | NON-disposable chemical protective gloves | The Breakthrough Time indicated by the manufacturer must exceed the period during which the product is being used. Do not use protective creams after the product has come into contact with skin. |

D.- Eye and face protection

| Pictogram                                                                                                        | PPE         | Remarks                                                                                                                   |
|------------------------------------------------------------------------------------------------------------------|-------------|---------------------------------------------------------------------------------------------------------------------------|
| <br>Mandatory face protection | Face shield | Clean daily and disinfect periodically according to the manufacturer's instructions. Use if there is a risk of splashing. |

E.- Bodily protection

| Pictogram                                                                                                                 | PPE                                                       | Remarks                                                                                     |
|---------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|---------------------------------------------------------------------------------------------|
| <br>Mandatory complete body protection | Disposable clothing for protection against chemical risks | For professional use only. Clean periodically according to the manufacturer's instructions. |

**Citronella Lamp Oil**

Date of compilation: 2025-12-15

Version: 1

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued)**

| Pictogram                                                                                                      | PPE                                                  | Remarks                                     |
|----------------------------------------------------------------------------------------------------------------|------------------------------------------------------|---------------------------------------------|
| <br>Mandatory foot protection | Safety footwear for protection against chemical risk | Replace boots at any sign of deterioration. |

**F.- Additional emergency measures**

It is advised to implement additional emergency equipments in workplaces that are particularly exposed to the product or in situations where risk assessments highlight the necessity of such equipments.

| Emergency measure                                                                                     | Standards                                       | Emergency measure                                                                                      | Standards                                      |
|-------------------------------------------------------------------------------------------------------|-------------------------------------------------|--------------------------------------------------------------------------------------------------------|------------------------------------------------|
| <br>Emergency shower | ANSI Z358-1<br>ISO 3864-1:2011, ISO 3864-4:2011 | <br>Eyewash stations | DIN 12 899<br>ISO 3864-1:2011, ISO 3864-4:2011 |

**Environmental exposure controls:**

To comply with environmental protection regulations, it is recommended to prevent any spillage of the product and its container. For more detailed information, please refer to subsection 7.1.D.

**Volatile organic compounds (VOC) according to Canadian Environmental Protection Act, 1999:**

|                             |                                     |
|-----------------------------|-------------------------------------|
| Volatile organic compounds: | 100 % weight                        |
| V.O.C. density at 20 °C:    | 776.2 kg/m <sup>3</sup> (776.2 g/L) |

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**
**9.1 Information on basic physical and chemical properties:**
**Appearance:**

|                          |                |
|--------------------------|----------------|
| Physical state at 20 °C: | Liquid         |
| Appearance:              | Not relevant * |
| Colour:                  | Yellow         |
| Odour:                   | Not relevant * |
| Odour threshold:         | Not relevant * |

**Volatility:**

|                                                           |                      |
|-----------------------------------------------------------|----------------------|
| Boiling point or initial boiling point and boiling range: | 180 °C               |
| Vapour pressure at 20 °C:                                 | 512 Pa               |
| Vapour pressure at 50 °C:                                 | 2600.83 Pa (2.6 kPa) |
| Evaporation rate at 20 °C:                                | Not relevant *       |

**Product description:**

|                                                                    |                         |
|--------------------------------------------------------------------|-------------------------|
| Density at 20 °C:                                                  | 776.2 kg/m <sup>3</sup> |
| Relative density at 20 °C:                                         | 0.776                   |
| Dynamic viscosity at 20 °C:                                        | 1.31 mPa·s              |
| Kinematic viscosity at 20 °C:                                      | 1.68 mm <sup>2</sup> /s |
| Kinematic viscosity at 40 °C:                                      | Not relevant *          |
| Concentration:                                                     | Not relevant *          |
| pH:                                                                | Not relevant *          |
| Relative vapour density at 20 °C:                                  | Not relevant *          |
| Partition coefficient — n-octanol/water (logarithmic value) 20 °C: | Not relevant *          |
| Solubility in water at 20 °C:                                      | Not relevant *          |
| Solubility properties:                                             | Not relevant *          |

\*Not relevant due to the nature of the product, not providing information property of its hazards.

## Citronella Lamp Oil

Date of compilation: 2025-12-15

Version: 1

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES (continued)

Decomposition temperature: Not relevant \*

Melting point/freezing point: Not relevant \*

**Flammability:**

Flash Point: 41 °C

Flammability (solid, gas): Not relevant \*

Autoignition temperature: 285 °C

Lower flammability limit: Not relevant \*

Upper flammability limit: Not relevant \*

**Particle characteristics:**

Median equivalent diameter: Not relevant \*

#### 9.2 Other information:

**Information with regard to physical hazard classes:**

Explosive properties: Not relevant \*

Oxidising properties: Not relevant \*

Corrosive to metals: Not relevant \*

Heat of combustion: Not relevant \*

Aerosols-total percentage (by mass) of flammable components: Not relevant \*

**Other safety characteristics:**

Surface tension at 20 °C: Not relevant \*

Refraction index: Not relevant \*

Total lead: 0 ppm

\*Not relevant due to the nature of the product, not providing information property of its hazards.

### SECTION 10: STABILITY AND REACTIVITY

#### 10.1 Reactivity:

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7 from Safety Data Sheet.

#### 10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

#### 10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

#### 10.4 Conditions to avoid:

Applicable for handling and storage at room temperature:

| Shock and friction | Contact with air | Increase in temperature | Sunlight       | Humidity       |
|--------------------|------------------|-------------------------|----------------|----------------|
| Not applicable     | Not applicable   | Not applicable          | Not applicable | Not applicable |

#### 10.5 Incompatible materials:

| Acids              | Water          | Oxidising materials | Combustible materials | Others                        |
|--------------------|----------------|---------------------|-----------------------|-------------------------------|
| Avoid strong acids | Not applicable | Not applicable      | Not applicable        | Avoid alkalis or strong bases |

#### 10.6 Hazardous decomposition products:

 See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO<sub>2</sub>), carbon monoxide and other organic compounds.

### SECTION 11: TOXICOLOGICAL INFORMATION

#### 11.1 Information on toxicological effects:

- CONTINUED ON NEXT PAGE -

## Citronella Lamp Oil

Date of compilation: 2025-12-15

Version: 1

### SECTION 11: TOXICOLOGICAL INFORMATION (continued)

The experimental information related to the toxicological properties of the product itself is not available

#### **Dangerous health implications:**

In case of exposure that is repetitive, prolonged or at concentrations higher than recommended by the occupational exposure limits, it may result in adverse effects on health depending on the means of exposure:

##### A- Ingestion (acute effect):

- Acute toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for consumption. For more information see section 3
- Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### B- Inhalation (acute effect):

- Acute toxicity : Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for inhalation. For more information see section 3.
- Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### C- Contact with the skin and the eyes (acute effect):

- Contact with the skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for skin contact. For more information see section 3.
- Contact with the eyes: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):

- Carcinogenicity: Exposure to this product can cause cancer. For more specific information on the possible health effects see section 2.
- IARC: Stoddard solvent (3)
- Mutagenicity: Exposure to this product can cause genetic modifications. For more specific information on the possible health effects see section 2.
- Reproductive toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### E- Sensitizing effects:

- Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous with sensitising effects. For more information see section 3.
- Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### F- Specific target organ toxicity (STOT) - single exposure:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### G- Specific target organ toxicity (STOT)-repeated exposure:

- Specific target organ toxicity (STOT)-repeated exposure: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### H- Aspiration hazard:

May be fatal if swallowed and enters airways.

#### **Other information:**

Not relevant

#### **Specific toxicology information on the substances:**

| Identification                     | Acute toxicity         |             | Genus |
|------------------------------------|------------------------|-------------|-------|
| Stoddard solvent<br>CAS: 8052-41-3 | LD50 oral              | >5000 mg/kg |       |
|                                    | LD50 dermal            | >5000 mg/kg |       |
|                                    | LC50 inhalation vapour | >20 mg/L    |       |

## Citronella Lamp Oil

Date of compilation: 2025-12-15

Version: 1

### SECTION 12: ECOLOGICAL INFORMATION

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

**12.1 Ecotoxicity (aquatic and terrestrial, where available):**

Not relevant

**12.2 Persistence and degradability:**

Not relevant

**12.3 Bioaccumulative potential:**

Not relevant

**12.4 Mobility in soil:**

Not relevant

**12.5 Results of PBT and vPvB assessment:**

Not relevant

**12.6 Other adverse effects:**

Not described

### SECTION 13: DISPOSAL CONSIDERATIONS

**13.1 Disposal methods:**
**Waste management (disposal and evaluation):**

Consult the authorized waste service manager on the assessment and disposal operations. In case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-hazardous residue. Waste should not be disposed of to drains. See epigraph 6.2.

**Regulations related to waste management:**

Legislation related to waste management:

Canadian Environmental Protection Act, 1999

### SECTION 14: TRANSPORT INFORMATION

**Transport of dangerous goods by land:**

With regard to Transportation of Dangerous Goods Regulations (SOR/2001-286) including Amendments:

**14.1 UN number:** UN1268

**14.2 United Nations proper shipping name:** PETROLEUM DISTILLATES, N.O.S

**14.3 Transport hazard class(es):** 3

Labels: 3

**14.4 Packing group:** III

**14.5 Environmental hazard:** No

**14.6 Special precautions which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises**

Physico-Chemical properties: see section 9

**14.7 Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code):** Not relevant

**Transport of dangerous goods by sea:**

With regard to IMDG 42-24:

## Citronella Lamp Oil

| <b>14.5 Environmental hazard:</b>                                                                                                                                              | No                           |
| <b>14.6 Special precautions which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises</b> |                              |
| Physico-Chemical properties:                                                                                                                                                   | see section 9                |
| <b>14.7 Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code):</b>                                                                                        | Not relevant                 |

### SECTION 15: REGULATORY INFORMATION

**15.1 Safety, health and environmental regulations specific for the product in question:**

- (Puerto Rico, USA): *Stoddard solvent (8052-41-3)*
- Domestic Substances List (DSL): *Stoddard solvent (8052-41-3)*
- Non-Domestic Substances List (NDSL): Not relevant

**Specific provisions in terms of protecting people or the environment:**

It is recommended to use the information provided in this safety data sheet as a foundation for conducting workplace-specific risk assessments. These assessments will help establish the appropriate risk prevention measures for handling, using, storing, and disposing of this product.

**Other legislation:**

Canadian Environmental Protection Act, 1999

### SECTION 16: OTHER INFORMATION

**Legislation related to safety data sheets:**

This safety data sheet has been designed in accordance with Part 4 and Schedule I of the Hazardous Products Regulations (SOR/2015-17), amended by SOR/2020-38 and SOR/2022-272.

**Texts of the legislative phrases mentioned in section 2:**

**Citronella Lamp Oil**

Date of compilation: 2025-12-15

Version: 1

**SECTION 16: OTHER INFORMATION (continued)**

H340: May cause genetic defects.

H350: May cause cancer.

H304: May be fatal if swallowed and enters airways.

**Texts of the legislative phrases mentioned in section 3:**

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3

**WHMIS 2015:**

Asp. Tox. 1: H304 - May be fatal if swallowed and enters airways.

Carc. 1B: H350 - May cause cancer.

Muta. 1B: H340 - May cause genetic defects.

**Advice related to training:**

Minimal training is recommended to prevent industrial risks for staff using this product, in order to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product.

**Principal bibliographical sources:**<http://whmis.org/>**Abbreviations and acronyms:**

IMDG: International maritime dangerous goods code

IATA: International Air Transport Association

ICAO: International Civil Aviation Organisation

COD: Chemical Oxygen Demand BOD5: 5-day biochemical oxygen demand

BCF: Bioconcentration factor LD50: Lethal Dose 50 CL50: Lethal Concentration 50

EC50: Effective concentration 50

Log-POW: Octanol-water partition coefficient

Koc: Partition coefficient of organic carbon

IARC: International Agency for Research on Cancer

Date of compilation: 2025-12-15

The information contained in this safety data sheet is based on sources, technical knowledge and current legislation, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product, it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within our awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this safety data sheet only refers to this product, which should not be used for needs other than those specified.

END OF SAFETY DATA SHEET
