ADTEC 400 METHYL COCOATE

CAS NO: 61788-59-8

PRODUCT DESCRIPTION

ADTEC 400 Methyl Cocoate is a clear to pale yellow liquid composed of coconut oil-derived fatty acid methyl esters. It is non-flammable, biodegradable, and widely used as a solvent, emollient, or formulation intermediate in personal care, cosmetic, and industrial applications.

PROPERTIES

S.NO	Property	Value
1	Appearance	Clear to yellow liquid
2	Odor	Mild oily / soapy
3	Boiling Point	~92°C (~198 °F)
4	Flash Point	>93 °C (>199 °F)
5	Viscosity (Dynamic / Kinematic)	Not specified
6	Solubility in Water	Negligible / non-applicable
7	pH	Non-applicable

HANDLING & STORAGE

- Store in a tightly closed container away from heat and moisture. Keep in a dry, ventilated area. Avoid contamination with water or strong acids/bases.

SHELF LIFE

- Two years when stored in original, unopened container under recommended conditions.

PACKAGING

- Original containers with secure lids, away from contamination

PRECAUTIONARY STATEMENT

Polyrheo maintains up-to-date Safety Data Sheets (SDS) on all its products. These sheets contain pertinent information that you may need to protect your employees and customers against any known health or safety hazards associated with our products. Users should review the latest SDS to determine possible health hazards and appropriate precautions to implement prior to using this material.

NOTES

The values indicated in this document may deviate from the test method requirements by the number of significant figures shown. Results may be based on tank certification, manufacturing data, periodic testing and/or most recent product restock. This product, including the product name, shall not be used or tested in any medical application without the prior written acknowledgement of Polyrheo as to the intended use. For more detailed information, please contact Customer Service.
